

# Novahunt, Driven hunt on Moose in South Sweden

Experience a typical Swedish Moosehunt with a local team in South Sweden

The area we provide this hunt is known for its high density of game and good opportunities to cull a decent bull. You will be embedded with a local hunting team, but the best posts are reserved for you!

## The Hunt

We will make use of the Swedish Moose dog to take a moose at bay whilst the rest of the animals will move out of the terrain, where you will be posted. This is a good opportunity to taste the traditions of Sweden and perhaps shoot a bull, without any trophy fees. During this hunt 3 adult mooses and unlimited calves can be shot

**This hunt is for a maximum of 5 people available**

### Travel overview;

Day 1 - Arrival
